MEN'S PANTS SEWING INSTRUCTIONS

This is the sewing instructions for the men's pants. These are of medium difficulty to sew (due to the fact the pattern requires a zip to be inserted, and this can be tricky for people with little sewing skills).

The pants are lower in front. You can choose between three different types of flies: one simple and one more complicated, which can be made in a short or longer alternative.

The pants are higher in back, with a curved backside. The legs are straight and of medium width, which are easily altered (to be tapered, flared etc).

They have a medium width waist band and do not include pockets or belt loops.

Instructions on how to make pockets are also available.

Sewing instructions for pants without zip is available under the women's pants sections.

FRONT

BACK

The pattern to the men's pants includes front and back pieces.

If you have chosen to make pants with a complicated fly you are also going to use the pattern pieces for extra parts.

WAISTBAND

Extra parts 1 and 2 are used to make the short fly while extra parts 3 and 4 are used to make the long zip.

(men's pants only)

There is also a pattern piece for the waistband.

The sewing instructions for the men's pants pattern include:
instructions for cutting out pattern,
sewing pants with a simple fly,
sewing pants with a complicated fly,
sewing pants with extra long fly,
adapting pattern and sew pockets.
